Synopsis :

Review If you travel in the mountains, you understand that knowledge equates to safety. Snow Sense is your source of unparalleled wisdom. It could save your life. -- Conrad Anker, Professional alpine climber and author Praise for previous editions: No other (avalanche) teachers have more credibility...Snow Sense is by far the best material available on staying alive in avalanche country. -- Steve Casimiro, Powder Magazine Praise for previous editions: Here's a book you should have. I know, I know, everybody says that but this is different...Now notice I didn't say this is a book you should have on your bookshelf. This one should be in the top packet of your pack...Snow Sense is a hands-on, explicit, clear-thinking, hard-hitting field guide...Every time I hear of another avalanche-caused death...I wish the victim had read this book. The survivors must read it. -- Mark Jenkins, Backpacker Magazine Read more About the Author Jill Fredston and Doug Fesler are among North America's leading avalanche experts. They have spent more than thirty years evaluating avalanche hazard, predicting avalanches, triggering them with explosives, teaching potential victims how to stay alive, and leading rescue efforts in Alaska.
